

April 1st, 2021
8:30am-10:00am

Join Westbridge Agricultural Products for our *Organic Weed Control Webinar*

DPR/CCA Hours Approved in AZ, CA, ID, MI, NV, OR & WA

8:30 a.m. - 9:00 a.m.: Weed Management in Organic Vegetable Production
Steven Fennimore, PhD

Vegetable Weed Science, University of California, Davis

Dr. Fennimore will review the basics of weed control in organic vegetable crops such as cultural, chemical and physical control tools. The session will cover the many unmet weed control needs in organic vegetable crops and some possible new technologies such as autonomous weeders that may help ease production and labor costs. Particular attention will be paid to the potential utilization of SUPPRESS® Herbicide EC for weed management in organic vegetable crops.

9:00a.m.-9:30a.m.: Weed Management in Weedy Rice

Whitney Brim-DeForest, PhD

County Director, Sutter-Yuba Counties

Dr. Brim-Deforest will review her recent trial with SUPPRESS® Herbicide EC in weedy rice. She will speak on application timing, rate, water volume, ph, target weeds, efficacy, etc. Dr. Brim-Deforest will also discuss other application methods on weed control in rice including non-chemical options.

9:30a.m.-10:00a.m.: Best Use Guidelines for Using SUPPRESS® Herbicide EC

Larry Parker, PhD

Director of Research & Development, Westbridge Ag Products

Dr. Parker will discuss best practices for SUPPRESS® Herbicide EC use including active ingredients, target pests, application guidelines, PPE, and recent trial efficacy data.
