BioLink® AntiFoam®

Principal Functioning Agents:
- Silica Filled Polydimethylsiloxane ........................................ 10.0%
- Constituents ineffective as spray adjuvant .......................... 90.0%
Total ........................................................................... 100.0%

All ingredients are exempt from the requirements of a tolerance as specified in 40 CFR §180.910

KEEP OUT OF REACH OF CHILDREN

WARNING

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

Classification: SKIN CORROSION / IRRITATION- Category 2
SERIOUS EYE DAMAGE/EYE IRRITATION- Category 2A

GHS Label Elements:
- GHS Pictogram:
- Signal Word: WARNING
- Hazard Statement: H315 Causes skin Irritation; H319 Causes serious eye irritation.

USER SAFETY RECOMMENDATIONS:
Applicators and other handlers must wear long-sleeved shirt and long pants, impermeable or chemical resistant gloves, protective eyewear, and shoes plus socks. Wash the outside of gloves before removing. Remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

Recommendations:
- Follow manufacturer’s instructions for cleaning & maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.
- User must:
  - Wash thoroughly with soap and water before eating, drinking, chewing gum, using tobacco, or using the toilet.
  - Remove clothing immediately if it becomes contaminated with product, and wash before reuse. Get medical attention immediately.
  - Remove person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing or breathing is irregular, provide artificial respiration or oxygen by trained personnel. Get medical attention if health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately.
  - Wash mouth out with water. If victim is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person.

PRODUCT INFORMATION

BioLink® AntiFoam® is a 10% active antifoam emulsion designed for effective use in agriculture. It can be applied with most surfactants in aqueous formulations, over a broad pH range. It is particularly effective with nonionic surfactants. BioLink® AntiFoam® is not for aquatic use.

DIRECTIONS FOR USE

BioLink® AntiFoam® can be used as received, or after dilution with water or other suitable process liquid. For best results, the emulsion should be mixed before use.

Dilution can be accomplished by mixing 3 to 10 parts of the selected diluent to one part BioLink® AntiFoam® with gentle stirring until a uniform mixture is obtained. Continued gentle mixing of the diluted antifoam is recommended to ensure product uniformity over extended storage times. For best results, add BioLink® AntiFoam® to the tank mix before adding the agricultural chemicals.

Recommendations:
- Suggested starting concentrations are 50 to 500 ppm of BioLink® AntiFoam®

NOTE: The effectiveness will depend upon composition of spray mixture, temperature, etc. Adjust BioLink® AntiFoam® concentration as necessary to achieve desired foam control.

STORAGE AND DISPOSAL

Storage: Store in accordance with local regulations. Store in original container, protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible material, food, and drink. Keep container closed. Do not store below 4°C as product will freeze. Disposal: Dispose of contents and container in accordance with all local, regional, national, and international regulations.

NOTICE OF WARRANTY

Westbridge warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions of use. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of Westbridge. In no case shall Westbridge be liable for consequential, special or indirect damages resulting from the use or handling of this product. Westbridge makes no warranties of merchantability or fitness for a particular purpose nor any other express or implied warranty except as stated above.
