PRODUCT INFORMATION

Organic BioLink® Cal Plus is a liquid plant food containing calcium, which is essential for membrane permeability and for promoting root and leaf development and overall plant vigor.

Organic BioLink® Cal Plus is completely soluble for improved nutrient availability and uptake by plant roots and leaves, and to provide a fast method of boosting plants under calcium deficiency stress.

Organic BioLink® Cal Plus can be applied to all crops such as brassica (cole), berries, citrus, cucurbits, field vegetables, fruiting vegetables, fruit trees, grapes (raisin, table and wine), leafy vegetables, root and tuber vegetables, row crops, strawberries, tree nuts, ornamental trees, shrubs, flowers, containerized plants, lawns and turf. Apply as a soil drench or a foliar spray with conventional spray equipment or chemigation.

Organic BioLink® Cal Plus may not be compatible with phosphate fertilizers.

Organic BioLink® Cal Plus can also be used to leach sodium from soils and correct salinic irrigation water.

DIRECTIONS FOR USE

SHAKE VIGOROUSLY BEFORE USING.

Foliar Application: 1 to 2 quarts per acre. Apply to plant foliage to point of run-off, throughout growing season as needed.

Soil Application: 1 to 2 gallons per acre. Apply in irrigation water until ground is saturated. Continued applications every 7 to 14 days at rate of 1 quart per acre through growing season as needed.

Nursery & Container: 1 to 2 ounces per gallon of water; apply to plant foliage to run-off or as a soil drench, continue through the season as needed.

Turf & Lawns: 3 to 6 ounces per 1,000 square feet; apply through irrigation water, continue applications at rate 1 ounce per 1,000 square feet every 7 to 14 days as needed.

Compatibility: Always add Organic BioLink® Cal Plus last when mixing with sulfur products. Always conduct a compatibility jar test before mixing Organic BioLink® Cal Plus with new products. Organic BioLink® Cal Plus may not be compatible with phosphate fertilizers.

NOTICE: Phytotoxicity occasionally occurs on sensitive plants. Perform a phytotoxicity test on a small plot before large-scale application. To lower the risk of phototoxicity, applications should be made early morning or late evening.

Net Content / Net Weight:

- 1 Gallon (3.75 L)/9.6 Lbs (4.4 Kg)
 - 2.5 Gallons (9.46 L)/24.0 Lbs (10.9 Kg)
 - 30 Gallons (113.6 L)/288 Lbs (130 Kg)
 - 55 Gallon (208 L)/528 Lbs (239 Kg)
- Bulk density 9.5 lbs per gallon at 68°F.
