PRODUCT INFORMATION

Organic BioLink® N-14 Fertilizer contains hydrolyzed protein which offers rapid water-soluble nitrogen to the plant. Nitrogen is the most essential element for plant vigor and development.

Organic BioLink N-14 Fertilizer helps to correct nitrogen deficiencies.

Organic BioLink® N-14 Fertilizer is ideal for use in organic crop production.

DIRECTIONS FOR USE

Organic BioLink® N-14 Fertilizer can be applied as a soil drench, drip irrigation, chemigation or as a foliar spray. Dilute the product in water at a rate of 10 pounds per 10 gallons of water before applying. Use **Organic BioLink® N-14 Fertilizer** based on soil or tissue analysis.

Foliar application: Use 2 to 10 pounds per acre per application.

Soil application: Use a minimum of 5 to 20 pounds per acre per application.

Compatibility: Always conduct a compatibility jar test before mixing **Organic BioLink® N-14 Fertilizer** with new products.

Phytotoxicity: Perform a phytotoxicity test on a small plot before large-scale application. To lower the risk of phytotoxicity, applications should be made early morning or late evening.

STORAGE AND DISPOSAL

Store in dry and cool place. Do not expose to excessive moisture. Do not reuse bag. Dispose of bag and excess material in accordance with local, state and federal regulations.

NET CONTENTS: 25 Pound Bag (11.35 Kg)

Ideal for Organic Crop Production
