PRODUCT INFORMATION

Organic BioLink® Soil Food-Web Activator is a highly concentrated growth medium designed to enhance microbial growth and activity in soils.

Organic BioLink® Soil Food-Web Activator stimulates the development of an aggressive microbial community.

Organic BioLink® Soil Food-Web Activator can be used with microbial inoculants.

DIRECTIONS FOR USE

SHAKE VIGOROUSLY BEFORE USING.

Organic BioLink® Soil Food-Web Activator can be applied to all crops such as brassica (cole), berries, citrus, cucurbits, field vegetables, fruiting vegetables, fruit trees, grapes (raisin, table and wine), leafy vegetables, root and tuber vegetables, row crops, strawberries, tree nuts, ornamental trees, shrubs, and flowers.

Soil Drench Application: 1 to 2 gallons per acre; Apply as a soil drench. Apply every 21 days or as desired throughout the growing season.

Turf: Use 4 to 8 ounce per 1,000 square feet. Spray plant foliage to the point of run-off, the product can also be applied as a soil drench. Apply every 21 days or as desired throughout the growing season.

Nursery and Home Garden: Use 1 to 2 oz per gallon of water as a soil drench or through the irrigation system. Apply every 21 days or as desired throughout the growing season.

Use with Microbial Inoculants: Organic BioLink® Soil Food-Web Activator can be used with microbial inoculants. Care should be taken not to mix concentrated Organic BioLink® Soil Food-Web Activator directly into the microbial inoculants. Always predilute the Organic BioLink® Soil Food-Web Activator in water at a minimum rate of 10 gallons of water per one gallon of Organic BioLink® Soil Food-Web Activator prior to adding to the microbial inoculants. If the inoculant has to be activated, mix Organic BioLink® Soil Food-Web Activator into the inoculant at the end of the activation period. If the inoculant can be used directly, mix the diluted inoculant into the diluted Organic BioLink® Soil Food-Web Activator.

Phytotoxicity: Always perform a test on a small plot before large-scale application. To lower the risk of phytotoxicity, applications should be made early morning or late evening.

Net Content/Net Weight:

- 2.5 Gallons (9.5 L)/ 24.25 Lbs (11.0 Kg)
- 30 Gallons (113.6 L)/ 291.0 Lbs (132.1 Kg)
- 55 Gallons (208.2 L)/ 533.5 Lbs (242.2 Kg)
- 275 Gallons (1040 L)/ 2667.5 Lbs (1211.0 Kg)

First Aid

IF ON SKIN: Take off contaminated clothing and wash before reuse. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF INHALED: Move person to fresh air. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Rinse mouth.

If symptoms persist, call a poison control center or doctor for treatment advice.
