The minimum required to give a smooth, uniform coverage usually gives the most effective results.

Organic BioLink® Surfactant & Penetrant

is a water-soluble adjuvant that may also be used as an interfacing agent for wettable powders. Variations in conditions of use can cause some variation in the amount of Organic BioLink® Surfactant & Penetrant required. The minimum required to give a smooth, uniform coverage usually gives the most effective results.

Note: for optimum results, spray mixes containing

Organic BioLink® Surfactant & Penetrant

should be applied within 36 hours.

2.5 Gallons (9.46 L) / 22.0 Lbs. (10.0 Kg)

1 Gallon (3.75 L) / 8.8 Lbs. (4.0 Kg)

All ingredients are exempt from the requirements of a tolerance under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN.

WARNING

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Signal Word: WARNING

Hazard Statement: Causes mild skin irritation. Causes eye irritation.

Precautionary Statement: Wash thoroughly after handling and before eating, drinking, chewing gum, or using tobacco. Avoid contact with eyes, skin or clothing. Wear protective eyewear such as goggles or face shield.

First Aid

IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash before reuse. IF IN EYES: Hold eye open and rinse slowly with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.

Organic BioLink® Surfactant & Penetrant is a low foaming, non-ionic type spreader, and adjuvant.

Organic BioLink® Surfactant & Penetrant provides quick wetting, more uniform distribution, and increases retention of spray by reducing surface tension of the spray droplets.

Organic BioLink® Surfactant & Penetrant is a water-soluble adjuvant that may also be used as an interfacing agent for wettable powders. Variations in conditions of use can cause some variation in the amount of Organic BioLink® Surfactant & Penetrant required. The minimum required to give a smooth, uniform coverage usually gives the most effective results.

Directions for Use

Shake well before using.

Organic BioLink® Surfactant & Penetrant can be applied to all crops including fruit trees, vines, tree nuts, fruits and vegetables, field and row crops, ornamental trees, shrubs and flowers, containerized plants, and turf. Do not use on roses.

Before using Organic BioLink® Surfactant & Penetrant, read and follow the precautions, restrictions and recommendations on the label of pesticides. Use according to the most restrictive label directions for each product in any tank mix. Do not add adjuvant at a level that would exceed 5% of the finished spray volume.

Ground or Aerial Application: Use ½ to 2 quarts per 100 gallons of water; can be applied with most pesticides and fertilizers.

Nursery & Container: Use 1 to 3 ounces per 5 gallons of water.

Home & Garden: Use 1 to 3 ounces per 5 gallons of water.

Note: This product has demonstrated excellent plant safety; however, not all species and varieties have been tested. Before treating a large area, treat a small area and observe prior to full-scale application.

Mixing Instructions: Prior to pesticide application, clean mixing and application equipment according to pesticide label directions. Adjust spray tank pH to a maximum of 6.0 before adding Organic BioLink® Surfactant & Penetrant to the tank. For wettable powders and water-soluble materials, add Organic BioLink® Surfactant & Penetrant in water before adding pesticide to spray tank. For emulsifiable products, add Organic BioLink® Surfactant & Penetrant after a good emulsion is formed.

Note: for optimum results, spray mixes containing Organic BioLink® Surfactant & Penetrant should be applied within 36 hours.

NOTE: Perform a phytotoxicity test on a small plot before large-scale application. To lower the risk of phytotoxicity, applications should be made early morning or late evening.

Storage and Disposal

Do not contaminate water, food or feed.

Storage: Store in original container. Store in cool, dry area above freezing temperatures. Product Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container Disposal: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal.

Net Contents/Net Volume:

- 1 Gallon (3.75 L) / 8.8 Lbs. (4.0 Kg)
- 2.5 Gallons (9.46 L) / 22.0 Lbs. (10.0 Kg)

Notice of Warranty

Westbridge warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions of use. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of Westbridge. In no case shall Westbridge be liable for consequential, special or indirect damages resulting from the use or handling of this product. Westbridge makes no warranties of merchantability or fitness for a particular purpose nor any other express or implied warranty except as stated above.
