

KEEP OUT OF REACH OF CHILDREN

WARNING

Causes serious eye irritation. Causes mild skin irritation.
May cause respiratory irritation.

PRECAUTIONARY STATEMENTS: Avoid contact with eyes, skin, or clothing. Wear waterproof gloves, protective eyewear, a long-sleeved shirt, long pants, and socks. Avoid breathing vapor or spray mist. Remove contaminated clothing and wash clothing before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

First Aid

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment

If on Skin OR on Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Wash exposed area with soap and water. If irritation persists, seek medical attention. Call a poison control center or doctor for treatment advice.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration. Call poison control center or doctor for treatment advice.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTICE OF WARRANTY - Westbridge warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions of use. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of Westbridge. In no case shall Westbridge be liable for consequential, special or indirect damages resulting from the use or handling of this product. WESTBRIDGE MAKES NO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.

CONTAINS NON-PLANT FOOD INGREDIENTS

Principal Functioning Agents:

Citric Acid	50.00%
Inert Ingredient: Water	50.00%
Total	100.00%

All ingredients are exempt from the requirement of a tolerance at 40 CFR 180.

GENERAL INFORMATION

BioLink® Acidifier is an acidifying agent specially designed for lowering the pH of irrigation water and agricultural sprays.

BioLink® Acidifier contains high concentrations of citric acid. The application of **BioLink® Acidifier** to irrigation water complexes minerals in both the water and the soil. The optimum pH in irrigation water is between 5.3-6.0 and citric acid is ideal as an acidifier for reducing the pH.

BioLink® Acidifier is effective in reducing dissolved salts in water and soil.

BioLink® Acidifier is not for aquatic use.

DIRECTIONS FOR USE

For use in Agriculture, Nurseries and Greenhouses: Use **BioLink® Acidifier** to adjust the spray mix pH level. Application rates depend on water pH and buffering capacity; therefore, use a pH meter to determine proper level of **BioLink® Acidifier** to use in the tank mix. Typical use rates are between 1 and 2 fluid ounces per 100 gallons of water. When adjusting the pH of the spray solution for **SUPPRESS® Herbicide EC**, use up to 1 gallon of **BioLink® Acidifier** in 100 gallons of water. **BioLink® Acidifier** can be used with all conventional application equipment, including air blast.

For Irrigation Water: Use **BioLink® Acidifier** to lower the pH of irrigation water, when the pH of the water is above the acceptable pH range 5.2-6.8. The suggested use rate is 4 to 15 fluid ounces per 1000 gallons of water. Use rates may vary depending on the test results of the irrigation water.

To adjust the pH of spray solution to 6-6.5: Add 8 to 32 fluid ounces of **BioLink® Acidifier** when using the Organic **BioLink® Phosphorous Fertilizer 0-12-0**.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED.

STORAGE: Store in original container. Store in cool, dry area above freezing temperatures. **PRODUCT DISPOSAL:** Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility. **CONTAINER DISPOSAL:** Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option for container disposal.
